## Stanislaus County Pediatric Clinic relocates to the Health Services Agency's main campus

**Stanislaus County** - The Pediatric services of the Health Services Agency clinic system have moved! Pediatric services are now being provided in the Family Practice Center at 830 Scenic Drive, just ½ mile from the former location on 17<sup>th</sup> Street. The same dedicated, high quality physicians continue to provide care at this new location. They include Dr. Sarah Ashby, Dr. Jonas Bernal, Dr. Nancy Brown, and Dr. Rosy Shah.

The new location will offer improved parking and is co-located with other services such as pharmacy, lab, radiology, rehabilitation and specialty physician services. The Scenic campus also offers a cafeteria, eligibility services to assist families and individuals to obtain payor coverage, and the agency's public health services.

The Pediatric clinic hours are Monday through Friday from 8:00 a.m. to 5:00 p.m. Appointments can be made by calling 558-8400.

The Health Services Agency has served this community for over 100 years. In recent years, the clinic system has continued to provide care to approximately 80,000 residents by providing in excess of 250,000 patients visits annually. The Pediatrics clinic helps to support the Family Medicine Residency program, which trains medical school graduates and is affiliated with both UC Davis and Doctors Medical Center.
